

Your safety continues to be our top priority  
We continue to go above and beyond to insure  
your comfort at The Powder Room.  
We are taking all precautions seriously for the  
safety of our clients and team.  
We have added an additional air purifier and  
sterilization station to the store.

We ask all clients coming for services to:  
Come solo  
Wear a mask when entering  
Wave for greeting  
Get temperature taken  
Complete prescreening  
Wash hands  
and then begin their service.

We continue to diligently clean our store and  
always clean before and after each client.  
We care deeply about all our clients and will  
always make The Powder Room a safe,  
comfortable and relaxing experience

We are committed to the continued education of  
our team members and have taken additional  
continuing education courses to remain on top  
the pandemic best practices.
